

Camera-ready instructions for IWSDA 2022

1. **Format requirements:** Please use the IEEE templates to produce your final camera-ready version (<https://www.ieee.org/conferences/publishing/templates.html>). The camera-ready version should be in double-column format and use font size no smaller than 10 points. The length of the paper should not exceed 5 pages including all figures and references. Please do not add page numbers.

Papers that do not meet these guidelines will not be placed in IEEE Xplore.

2. **Copyright Transfer:** Before submitting the final camera-ready version of your paper, please complete the online IEEE Copyright Form. You will receive instructions on how to access the IEEE Electronic Copyright Form (eCF) in a separate email. Once you have completed and submitted your eCF, you will receive a confirmation email with a PDF receipt. Please send this PDF receipt along with your camera-ready PDF to iwsda2022@gmail.com

Papers without a completed copyright form will not appear in IEEE Xplore.

3. **Copyright Notice:** The appropriate copyright notice is to appear at the bottom of the first page:

- For papers in which all authors are employed by the US government, the copyright notice is:
U.S. Government work not protected by U.S. copyright
- For papers in which all authors are employed by a Crown government (UK, Canada and Australia) the copyright notice is:
